

Skype is a free way to connect with people on the internet when you can't meet with them in person.

You can call, video call or send a message to a person or a group of people.

Skype can be used on a smart phone, tablet, laptop or a computer.

Some people might need help to set up **Skype**. This could be a family member, carer or someone you trust.

Here are some YouTube video links to help you use **Skype**:

How to install Skype
